GuideWire Principal Speaks at EAA's 2002 Environmental Professional Expo & Conference

KANSAS CITY, Mo. – Mike Dever, president of GuideWire Consulting, LLC, a full-service environmental consulting firm, addressed the environmental assessment and real estate appraisal industry at the 2002 Environmental Professional Expo & Conference Oct. 27-20, 2002 in Las Vegas, Nev. Dever spoke on “Environmental Reporting Software” highlighting advancements in digital field collection technology.

GuideWire has developed a first of its kind system to provide the tools to digitally collect field data and fully integrate project data into a comprehensive and standardized report using state-of-the-art technology. The RESource System™ is based on data collection utilizing personal data assistant (PDA) software and Internet-based data integration and report generation. More information is available at www.GuideWireRESource.com.

The Environmental Assessment Association (EAA) is an international organization dedicated to providing members with information and education in the Real Estate Industry in respect to Environmental Inspections, Testing and Hazardous Material Removal. EAA represents over 5,000 Environmental Professionals who provide services to a wide variety of clients including lenders, federal and state agencies, private companies and many others. More information is available at www.iami.org/EAA.cfm.

GuideWire Consulting, LLC, is a full-service environmental consulting and software development firm.
